The Executive Committee has determined that these cases, which includes one case previously related to one of them, although not themselves technically related within the meaning of Crim. L.R. 8-1, should be assigned to one judge in the interest of avoiding duplication of effort and conserving judicial resources and to enable efficient case management in light of the stated intent of the Federal Public Defender and CJA counsel

1 to file motions to dismiss for selective prosecution based on the same evidentiary record
2 in each of the above-entitled cases. The Executive Committee has also determined that
3 in light of the nature of the motion and the potential need for judicial involvement in case
4 management before the motion is actually filed, the reassignment should occur
5 immediately. Accordingly, the above-entitled cases are hereby REASSIGNED to Judge
6 Edward Chen. Should a selective prosecution motion not be filed in any of these cases
7 by a date to be set by Judge Chen, the case will be reassigned back to the transferor
8 judge.
